CAPABILITY STATEMENT

In business since 2011, Peak Sustainability Group (formerly Kulshan Services) was founded by David Roberts after three decades in public service. Our multi-disciplinary team of environmental and sustainability professionals support businesses and communities in catalyzing breakthrough solutions to complex challenges. Peak helps clients address compelling economic, business, environmental, and social issues of our time. We create maximum value, multiple-benefit outcomes and progress on the problems you care about. We love working with empowered leaders to discover new possibilities, facilitate inclusive and sound decision-making, and create a resilient path forward. When every day is a big day, we promise to be a reliable, qualified partner navigating the journey with you.

OUR TEAM

The Sustainability team at Peak specializes in supporting businesses as they navigate their unique path to sustainability. We help you gather data, measure what matters, communicate with valued stakeholders, and guide you to opportunities that provide multiple benefits to your business. We work with you to create a vision for the future and identify concrete steps to make it a reality. With our team's guidance, your business will discover holistic solutions tailored to your operations and feel confident taking meaningful action toward becoming a leader in business sustainability.

Jessa Clark

Jessa is passionate about using systems mapping and sustainability analysis to identify effective leverage points for positive impact. She focuses on engaging diverse stakeholders in collaborative solutions, working with businesses to integrate sustainability into corporate values and operations, and taking a holistic approach to complex sustainability challenges.

Education:

M.S. Sustainability Science and Practice – Stanford University

B.S. Human Biology – Stanford University

Additionally, the Sustainability team is supported by a multi-disciplinary group of sustainability professionals within Peak's Ecosystem Health, Climate Planning, and Strategic Communications teams.

CORE COMPETENCIES – Business Sustainability Team

Navigate change with a north star of sustainability to achieve greater success. Develop meaningful sustainability goals and objectives. Gain competitive advantage and boost profits. Attract and retain talent. Measure what matters and communicate the value of doing well by doing good. Protect your brand and mitigate future risk. Together, we can create resilience and prosperity without harming the planet.

- Environmental impact analysis & tracking
- Carbon footprint calculation & analysis
- Sustainability & ESG planning
- Sustainability & ESG reporting
- Systems mapping and analysis
- Third-party certification support

PROJECTS AND TESTIMONIALS

PAC Worldwide

Redmond, WA

Scope of work:

- Plastics recovery study
- Baseline sustainability report

"Peak has been a tremendous help to our internal team with honest, precise, and innovative work involving carbon footprint and other packaging-related environmental challenges and opportunities. PAC Worldwide engaged Peak in 2018 to innovate a program of recyclability of our polyethylene packaging products. They brought unique and practical ideas to the table around circular initiatives and subject matter knowledge backed up by science and facts for a plan of action to pilot program engaging business, quasi-governmental, and end-users in the solution. In 2021, PAC again engaged Peak to develop our first Carbon Footprint Program." **Jeff Snow | CFO, PAC Worldwide**

Tony's Coffee

Bellingham, WA

Scope of work:

- Energy & carbon footprint analysis and report
- Sustainability report advising

"The Peak team helps move companies like our own to explore new possibilities for business and social good. With the expertise of the team at Peak, we poured over years of records in order to measure our carbon footprint. They helped us to examine our production output, our roastery's footprint, and our delivery fleet's fuel usage. By measuring what matters, we have been able to better tell our story and move forward on our sustainability journey." **David Yake | Director of Sales & Sustainability, Tony's Coffee**

Neil's Bigleaf
Maple Syrup
Acme, WA

Scope of work:

- Grant writing
- Industry/business development support

The Bagelry
Bellingham, WA

Scope of work:

- Operational sustainability consultation
- Water & energy use analysis and report

WHY PEAK SUSTAINABILITY GROUP?

- Wide range of services for a small company
- A network of complimentary specialties
- Locally owned and regionally connected
- 50% woman-owned
